Dan G. and I called the City of Bridgeton again this morning to convey our interest in meeting with the Mayor, City Administrator and/or City Council to share the current activities being conducted at the site.

Once again, I expressed how much we would appreciate being able to meet and/or talk with city representatives. The dialogue has been ongoing with them since June. I also stated (again) that we had to make travel arrangements ASAP, and would need some direction from them soon.

The Mayor's assistant apologized for their lack of communication back to us and stated that the Mayor is currently out of town. She stated that the City Council and Mayor received our Fact Sheet > two weeks ago, and were suppose to make a decision about EPA attending their City Council Meeting (next one is scheduled for Sept. 5th).

She promised that she would speak with the Mayor by phone and ask him about next steps. I offered more than one option for briefing them (in person, by phone, et al), which she will also convey to the Mayor.

Please stay tuned.....

Debbie
